Summary

Middle Frontend Developer with over 2.5 years of commercial experience specializing in React, TypeScript, and Next.js. Proven track record of evolving from frontend-focused tasks to delivering end-to-end features using ExpressJS, Prisma, and PostgreSQL

Experience

digwex Remote
Frontend / Full-Stack Developer July 2023 – Dec 2025 (2 years 6 months)

Evolution of Role: Started as a Junior Frontend Developer and progressed into a versatile Full-Stack role, taking full ownership of features from database schema design to complex UI implementation

Tech Stack: React, Next.js, TypeScript, Express.js, Prisma, PostgreSQL, Tailwind CSS, SCSS, React-hook-form

Key Achievements & Responsibilities:

- **End-to-End Development:** Participated in the full development lifecycle of high-stakes projects, including crypto exchanges (Byfalio) and decentralized applications (ApeDEX)
- **Performance Optimization:** Optimized crypto exchange performance by streamlining data fetching and state management, resulting in a more responsive trading interface
- **Form Management & Validation:** Architected complex, multi-step forms and user onboarding flows using **React-hook-form**, ensuring robust client-side validation and seamless UX
- **Full-Stack Feature Delivery:** Built and integrated backend services using **Express.js** and **Prisma**, managing database migrations and API endpoints to support frontend requirements
- **UI/UX Implementation:** Developed adaptive and high-performance web interfaces using **Tailwind** and **SCSS**, focusing on pixel-perfect implementation of Figma designs
- **External Integrations:** Integrated third-party APIs (including Twitter API for FROX) and blockchain networks (WAX, Solana) to extend application functionality
