Experience

digwex Remote
Frontend / Full-Stack Developer July 2023 – Dec 2025 (2 years 6 months)
Evolution of Role: Started as a Junior Frontend Developer and progressed into a versatile Full-Stack role, taking full ownership of features from database schema design to complex UI implementation
Tech Stack: React, Next.js, TypeScript, Express.js, Prisma, PostgreSQL, Tailwind CSS, SCSS, React-hook-form

Key Achievements & Responsibilities:

- End-to-End Development:** Participated in the full development lifecycle of high-stakes projects, including crypto exchanges (Byfallo) and decentralized applications (ApeDEX)
- Performance Optimization:** Optimized crypto exchange performance by streamlining data fetching and state management, resulting in a more responsive trading interface
- Form Management & Validation:** Architected complex, multi-step forms and user onboarding flows using **React-hook-form**, ensuring robust client-side validation and seamless UX
- Full-Stack Feature Delivery:** Built and integrated backend services using **Express.js** and **Prisma**, managing database migrations and API endpoints to support frontend requirements
- UI/UX Implementation:** Developed adaptive and high-performance web interfaces using **Tailwind** and **SCSS**, focusing on pixel-perfect implementation of Figma designs
- External Integrations:** Integrated third-party APIs (including Twitter API for FROX) and blockchain networks (WAX, Solana) to extend application functionality

Personal Projects

- Sift-Shop | Full-stack E-commerce Monorepo**
 - Developed a scalable monorepo featuring a storefront, admin panel, and authentication
 - Stack:** Next.js, NestJS, GraphQL, Prisma, PostgreSQL, AWS S3
- Sift-Ludo | Board Game Application**
 - Developed a classic board game in React featuring bot AI and step-by-step animations
 - Stack:** React, TypeScript, Framer Motion, Zustand
- Sift-Rate | Progressive Web App (PWA)**
 - Built a service for rating media (movies, games, books) with personalized yearly stats and timelines
 - Stack:** Next.js(App Router), TypeScript, API Integrations
